

 - download - NO! (see INFO - "INDICATOR")

If a motive is marked with a red marker in the gallery, it cannot be downloaded yet and under the icons - A4 PDF, or 8,5"x11" (Letter) PDF, or Max. size JPG... etc... - you will only find (if you click on them) a warning that downloading will be possible when the indicator in the WEBSITE LOGO (r4d.cz) is green and the value is 80% or more.

INDICATOR "%"

 (0 % - 79 %)

 (80 % - 100 %)

The numerical indicator in "%" - is the current amount of total donations you are sending, which I consider adequate to work on the next batch of graphics you can download.

The indicator will always appear at the top of the WEBSITE LOGO - r4d.cz

The new graphic motives will first be offered in - **COMING SOON**

The indicator is always valid for a new graphics collection. So it will reset whenever I move a new collection of graphics from **COMING SOON**, add it to the gallery sections and the marker next to the motive will be green.

How does it work?

You can download and use what you find in the gallery with the green marker, see - [LICENCE](#)

The new collection of graphics will be added to the gallery and available for download as soon as the indicator in the WEBSITE LOGO (r4d.cz) turns green and its value is between 80%-100%. For me it will be an indicator that you are interested in other graphics and new things and that you can appreciate the creation of graphics that I prepare for you - retouching graphics, preparing and tuning them for printing, preparing them for print formats, creating a website, surveys and more (cost of software, hardware and paid dedicated time to generate A.I. graphics on graphics servers, etc.)
